SIX-MONTH REPORT OF QWEST CORPORATION

I. INTRODUCTION

On December 19, 1991, the Federal Communications Commission ("Commission") released a Memorandum Opinion and Order in the above-captioned proceeding, wherein it established certain ongoing reporting requirements in order "to enable the Commission to monitor the BOCs' [Bell Operating Companies] progress in providing ONA [Open Network Architecture] capabilities to ESPs [Enhanced Service Providers]."² In compliance with that Order, ³ Qwest Corporation ("Qwest") files the following with the Commission:

- 1. A Nationwide Tariff Matrix (Attachment 1).
- BOC ONA Special Report #5 Update (which contains updates of the 2. Cross Reference Guide, Appendices A & B) (Attachment 2).
- Hard copy portions of the ONA Services User Guide (Attachments 3 3. and 4).4

³ <u>See id.</u> at 7663 ¶ 35 n.56, 7664 ¶ 38 n.63. <u>See also, id.</u> at 7677-79, Appendix B, summarizing the filing requirements.

4. Diskettes of the ONA Services User Guide.5

The above-referenced items 1-3 are being filed only with the Commission.

The information contained in these submissions is available to interested persons by contacting Qwest InterConnect Services at 1-800-544-7126.

II. FILINGS REQUIRED BY SUMMARY ORDERING PARAGRAPH

At the conclusion of the Commission's <u>Order</u>, it provided a summary of future filing requirements for the BOCs. Qwest has chosen herein to utilize the Commission's basic "summary" as the outline by which we will make our responses. This methodology was chosen for the Commission's ease of reference in assessing Qwest's compliance.

Requirement:

1. "Work through the IILC [Information Industry Liaison Committee] to develop one consolidated nationwide matrix of BOC ONA services and

⁵ These diskettes are being provided directly to the Policy Division of the Commission and include the following material from the <u>ONA Services User Guide</u>: Special Report No. 5 (one diskette), Service Descriptions Section (one diskette), Tariff Reference Section (one diskette), and Wire Center Deployment (two diskettes).

omments on the elimination of some or all ONA reporting requirements, Qwest proposed that the semi-annual reports and the Annual Report be consolidated into a new Annual ONA Report. The new Annual ONA Report would encompass all of the existing requirements of the semi-annual reports and streamlined information contained in its current ONA Annual Report. In the alternative, Qwest proposed that new ONA services be posted on a web site which could eliminate the need for a paper report. U S WEST (Qwest) Comments filed Mar. 27, 1998. In the Matter of Computer III Further Remand Proceedings: Bell Operating Company Provision of Enhanced Services, 1998 Biennial Regulatory Review -- Review of Computer III and ONA Safeguards and Requirements, Further Notice of Proposed Rulemaking, 13 FCC Rcd. 6040, 6094-95 ¶¶ 101-2 (1998).

state and federal ONA tariffs, and file the matrix with the Commission."

Response:

Qwest worked through the former IILC and with the other BOCs to develop a combined nationwide tariff reference matrix.⁸ This document is included herewith as Attachment 1.

The nationwide matrix includes the generic name of the ONA service, which operating company offers the service in a particular jurisdiction, and whether the service is a Basic Service Element ("BSE"), Basic Serving Arrangement ("BSA"), or Complementary Network Service ("CNS"). The matrix also provides the name of the ONA service, as it is identified in a particular state or federal tariff, and a specific tariff reference.

Each BOC has reviewed the matrix to ensure the accuracy of the information contained therein pertaining to itself. The matrix identifies Qwest's tariffs effective as of July 31, 2001, the effective date of the Tariff Reference Section of the <u>ONA</u> Services User Guide.⁹

Requirement:

2. "File computer diskettes and print outs of data regarding state and federal tariffs." 10

⁷ Monitoring Order, 6 FCC Rcd. at 7678, Appendix B.

⁸ The nationwide matrix was assembled by National Telecommunications Alliance, Inc. ("NTA") at the request of the BOCs.

⁹ <u>See</u> note 4, <u>supra</u>. The Tariff Reference Section of the <u>ONA Services User Guide</u> is discussed more fully below and is provided as Attachment 4.

¹⁰ Monitoring Order, 6 FCC Rcd. at 7678, Appendix B.

Response:

This information -- in printout form -- is contained in the Tariff Reference

Section of the <u>ONA Services User Guide</u>, which is included herein as Attachment 4.

The information as contained on computer diskettes is being provided to the Policy

Division of the Commission (<u>see</u> Response to Requirement 3, below), and is not included herein as an attachment.

Requirement:

3. "File a printed copy and computer diskette of the <u>ONA Services User Guide</u>." 11

Response:

A printed copy of the July 31, 2001, <u>ONA Services User Guide</u> accompanies this filing as Attachment 3 (the "Services Description Section") and Attachment 4 (the "Tariff Reference Section"). The <u>ONA Services User Guide</u> as it appears on diskette (which includes wire center deployment information) is being provided to the Policy Division of the Commission coincident with this filing, as requested, and is not herein included as an attachment.

Requirement:

4. "File updated information contained in Appendix A of the January 31, 1991 <u>Cross Reference Guide</u> on ESP requests received and how they were addressed by the BOCs with details and matrices." 13

^{11 &}lt;u>Id.</u>

¹² <u>See</u> notes 4 and 5, <u>supra</u>. The Tariff Reference Section of the <u>ONA Services User Guide</u> provides the information required by the Commission's <u>Monitoring Order</u>. <u>See Monitoring Order</u>, 6 FCC Rcd. at 7664 n.63.

¹³ <u>Id.</u> at 7678, Appendix B.

Requirement:

5. "File updated information contained in Appendix B of the January 31, 1991 Cross Reference Guide on BOC responses to the requests and

matrix."14

Response:

Appendices A & B of the Cross Reference Guide, updated as of September 30,

2001, are identified as BOC ONA Special Report #5. A copy of this Special Report is

provided as Attachment 2.

Requirement:

6. "File updated information contained in Appendix C of the January 31, 1991 Cross Reference Guide on services offered by the BOC in response

to the requests." to

Response:

This updated information is contained in the ONA Services User Guide,

"Service Descriptions Section," attached herein as Attachment 3.

III. CONCLUSION

As set forth herein, Qwest makes the appropriate responses and filings as

required by the Commission's Monitoring Order.

Page numbers are based on 7/31/2001 release of the ONA Services User Guide.

Page numbers preceded by R are in Appendix 1 of the ONA Services User Guide, which contains Region Specific services.

Abbreviations: A=BSA B=BSE C=CNS

Under each state abbreviation, the left column contains FCC tariff information and the right column contains state tariff information. Please note - recently, various BOCs have completed, or are in the process of completing, corporate mergers. For this document, the old company names will continue to be used (for example, Bell Atlantic and NYNEX are listed separately).

1. Appendix A: Relationship Between ESP Requests for Network Capabilities and ONA Services

The FCC, in its December 22, 1989 Memorandum, Opinion and Order, recognized the 118 requests for network capabilities included in BOC Special Report Number 1 as the nationally received requests. Not all of these requests are for particular services. For example, some are for attributes that a service should contain; some are for a service to operate in a particular manner. As a result, some ONA services offered meet a number of network capability requests, while some requests are met by a number of ONA services. There is not a one-for-one relationship between network capability requests and ONA services. In addition, some ONA services may be offered by some regional companies as both a BSE and a CNS, depending on the line that the service is applied to.

The following appendix shows the relationship between each of the requested network capabilities, other requested network capabilities and ONA services. The ONA services listed use the Uniform Names developed by the regional companies and contributed to the IILC Issue 006 ONA Services User Guide Task Group.

Following this Appendix A is a summary table (Appendix B) arranged to be similar to Appendix E of the FCC's December 22, 1988 Memorandum Opinion and Order.

Please note – recently, various BOCs have completed, or are in the process of completing, corporate mergers. For Appendix A and Appendix B of BOC ONA Special Report #5, the old company names will continue to be used (for example, Bell Atlantic and NYNEX are listed separately, rather than being combined under the Verizon name; Southwestern Bell and Pacific Bell and Ameritech are listed separately).

1. Call Forwarding Busy Line/Don't Answer

This is a request for a service. It is being met by some regional companies by offering the following ONA services:

- Call Forwarding Busy Line Intraswitch
- Call Forwarding Busy Line Interswitch
- Call Forwarding Don't Answer Intraswitch
- Call Forwarding Don't Answer Interswitch

2. Activation Of Call Forwarding Variable Without Call Completion

This is a request for an attribute of service. It is being met by some regional companies by offering the following ONA service:

Call Forwarding - Variable - Activation Without Courtesy Call

3. Call Forward Don't Answer Interoffice

This request relates to request number 1. It is being met by offering the following ONA service:

Call Forwarding - Don't Answer Interswitch

4. Multiple Calls Forwarded To DID Interoffice

This is a request for a particular application of a service. It is being met by some regional companies by offering the following service:

Call Forwarding - Multiple Simultaneous Calls Interswitch

5. Call Forwarding With Status Information To Answering Bureau

This request is for a particular application of a service. It is being met by some regional companies by offering the following service:

- Message Desk (SMDI)
- Message Desk (SMDI) Expanded

6. Activation of Call Forwarding Variable With Call Completion

This request is for a service. It is being met by offering the following service:

• Call Forwarding - Variable

7. Call Forwarding With Call Screening.

This is a request for a service. It is being met by some regional companies by offering the following ONA service:

Selective Call Forwarding

8. Call Forwarding With Call Waiting

This is a request for two services to interact in a particular manner. It is met by some regional companies by offering the following ONA service:

• Call Forwarding Don't Answer After Call Waiting (CFDA After CW)

9. Call Forwarding With Called and Calling Number

This is a request for a particular application of a service. It is related to request number 5. It is being met by some regional companies by offering the following ONA services:

- Calling Directory Number Delivery via BCLID
- Message Desk (SMDI)
- Message Desk (SMDI) Expanded

10. Call Forward Don't Answer With Variable Ring Counts

This is a request for a service to operate in a particular manner. It is related to request number 1. It is being met by offering the following ONA services:

- Call Forwarding Don't Answer Interswitch
- Call Forwarding Don't Answer Intraswitch
- Customer Changeable Number of Rings

11. Customer Control of CFBL/CFDA

This is a request for a service. It is being met by some regional companies by offering the following ONA services:

- Call Forwarding Busy Line or Don't Answer Customer Control of Activation/Deactivation
- Call Forwarding Busy Line or Don't Answer Customer Control of Forward-To Number

12. Monitor & Barge In

This is a request for a service that requires development.

13. SMDI

This is a request for a particular interface. It is related to requests number 5 and 9. It is being met by some regional companies by offering the following ONA service:

- Message Desk (SMDI)
- Message Desk (SMDI) Expanded

14. SMDI With Automatic Ringback

This is a request for a service to operate in a particular manner. Based on the findings in IILC Issue #030 (Message Waiting Indication: Ringback After Busy Transfer), it is being met by some regional companies by offering the following combination of services:

- Distinctive Ringing Terminating Screening (client needs to have a second telephone number)
- Call Forwarding Variable (or Call Forwarding Busy Line/Don't Answer)

15. 3-Way Call Transfer

This is a request for a service. It is being met by some regional companies by offering the following ONA service:

• Three Way Call Transfer

16. Speed Calling

This is a request for a service. It is being met by offering the following ONA service:

Speed Calling
